

# Project Details

## Projects Involved at Cheil Engineering Co., Ltd

**Name of assignment or project:** Consultancy Services for Review of Design, Supervision and Management of Works Contract for Construction of a Standard Gauge Rail (SGR) along the Central Railway line

**Month and Year:** August 2021 ~ Present

**Location:** Dar es Salaam, Morogoro, Makutupora, Tabora, Isaka, Mwanza in Tanzania

**Client:** Reli Asset Holding Company(RAHCO)

### Main project features:

This project is to construct new standard gauge railway of 1,219Km from Dar es Salaam to Mwanza. The railway will increase the rail transportation capacity of Tanzania and result in boosting trades between Tanzania and neighbouring countries. In addition, the state-of-the-art facilities will provide safe, efficient and environment friendly train services for customers. And the specific objectives of this project are;

- to review and update the scope of D&B Contractor,
- to support the Client in negotiations with successful bidder,
- to review and approve the Design and Build (D&B) contractor's designs,
- to supervise construction works, and
- to manage the Project to successful completion of the Defect Liability Period (DLP).

The Project is divided into two phases according to designated project sections as follows.

Phase I : Dar es Salaam to Morogoro (approximately 300km)

Phase II : Morogoro to Mwanza (approximately 1,020km, with 4 sub-sections of i)

Morogoro-Makutupora, ii) Makutupora-Tabora, iii) Tabora-Isaka and iv) Isaka-Mwanza)

**Positions held:** Assistant Railway Engineer

**Activities performed:** Support to prepare supervision plan, make addendum contract documents and make monthly report for the client, etc.
